

TandemVids Installation Instructions

1. Download the latest version of TandemVids from <http://www.swoopware.com/downloads/downloads.aspx>
2. The x64 version is for 64 bit operating systems. (You can download the x86 version for older 32 bit operating systems.)
3. Execute the msi file by double clicking on it in Windows Explorer.
4. Follow the prompts as per the screenshots below.

The following pre-requisites are required by TandemVids

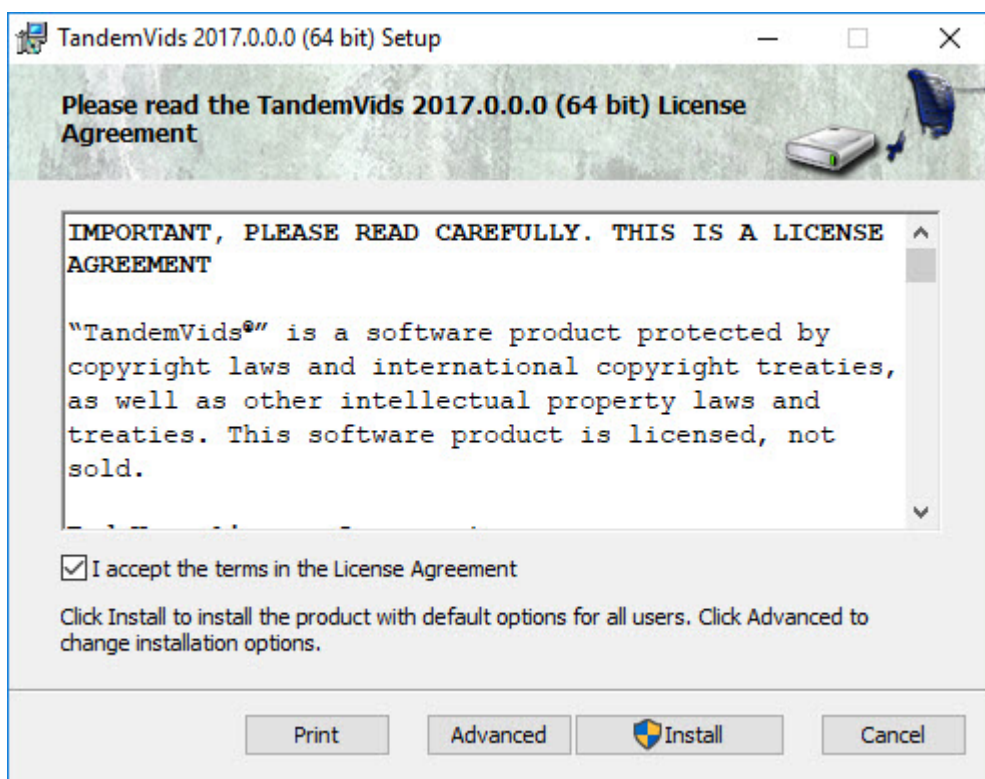

- [Vegas Professional 8, 9, 10, 11, 12, 13, 14 or 15](#). TandemVids will not start without Vegas Professional.
- [DVD Architect 5, 6 or 7](#) - This is only required for DVD and Blu-ray burns. A license is included with Vegas Professional.
- [Microsoft DotNet 3.5 SP1](#) - A link to the installer on the Microsoft website will be displayed during the TandemVids installation if required
- [Microsoft DotNet 4.5](#) - A link to the installer on the Microsoft website will be displayed during the TandemVids installation if required.
- The [Lav Filters](#) are highly recommended for HD AVCHD and MP4 files and work well with TandemVids.
